OrganoClick's Scientific Founders Receive Innovation Prize From Stockholm City

Sweden, 5 December 2007 - The scientific founders of OrganoClick, Dr. Jonas Hafrén and Dr. Armando Córdova each one received an innovation prize from Stockholm city for the innovations that now are part of OrganoClick's product portfolio. Jonas received SEK 50 000 for OrganoClick's proprietary method for modification of heterogeneous cellulose for the development of environmentally friendly biomaterials. Armando received SEK 75 000 for methods enhancing synthesis of small organic molecules used in the development of pharmaceuticals.

For more information about the prize, follow the link below:
